

## Auditing Services

4site is a leading independent engineering consulting company offering a variety of Auditing and Compliance services tailored to the needs of our clients ranging from operators and vendors through to infrastructure owners. Founded in 2002, the business continues to grow year on year with offices in Reading, Dublin and Limerick.

Our multi-disciplinary skillset allows us to bring together the correct team to meet your inspection requirements. Our effective inspection and auditing practices combined with our in-house developed audit management tool, 4view, ensures we can deliver detailed reporting in real time and of real value.

Over the last ten years 4site has carried out various inspections / audits on over 5000 sites ranging from local base stations and fibre hub sites to large scale customer properties.

Effective audit regimes are vital to ensure sites and critical network assets remain in a safe and compliant condition to preserve the asset and maximize its operational value, fulfilling a vital role within your company's preventative maintenance program.

## Our Approach

Our Audit Services range from structural inspection, inventory recording, transmission and jumpering inspection, through to solution compliance and radio performance.

Drawing upon our wide range of expertise from within the business we are able to design and implement bespoke inspection regimes to ensure our clients assets remain legally compliant, safe and operationally efficient. By utilising the most up-to-date software and tools, we ensure speed and accuracy without compromise.

Our collaborative approach to asset management has helped us in building valuable relationships with key clients over the years.

## Effective tools

Our audit management tool 4View (developed in-house ) ensures we can deliver detailed reporting in real time and of real value. Our 4view tracking tool database stores all records and these are readily accessible by authorised personnel. This eliminates the historical issues associated with soft/ printed hard copy records. 4view enables us to accurately 'trend' our findings, adding value to the overall process which allows our clients to target specific needs.

## 4site offers
